Community Trust with Balcarres Estate

On the 21st of April the The Colinsburgh Community Trust held an event with Anthony Crawford, owner of the Balcarres Estate. At the meeting he expressed a wish to tie the development of the Estate with the needs and wishes of the village.

The Local Place Plan

Residents of the village were surveyed by the Colinsburgh and Kilconquhar Community Council so that they can submit a Local Place Plan to Fife Council. As your feedback applies to both, the Community Trust and Community Council are now sharing information and working together for the Local Place Plan.

Why we're working together

It's important that we inform Fife Council of our ideas so we can develop them more effectively. The Local Place plan is a key document to inform Fife Council of what a community needs and wants. The projects that come from our work with The Balcarres Estate will be pursued and developed independently of the Place Plan. The inclusion of the ideas from the event on the 21st of April into the Place Plan is to alert Fife Council to developments that might need their cooperation.

Ideas consultation period

The Colinsburgh Community Trust is starting to work with Anthony Crawford to evaluate and prioritise these ideas. There are projects we can start soon, and some we will have to schedule for later. We will circulate a full evaluation in August.

Important Dates

20th of May is the final date for Community Trust working with Balcarres Estate submissions.

The proposed Local Place Plan will have a public consultation from **2nd June to 28th June**. The Local Place Plan will be submitted to Fife Council on **30th June**.

The Colinsburgh Community Trust working with Balcarres Estate will publish and circulate their Development Plan in **August**.
